

Municipal Water Maintenance Notice

Swabbing of Water Mains

Swabbing of the water mains will take place during the week of **September 7th to 8th.**

This will take place throughout the village. Foam swabs will be forced through the water mains to clean out the lines. This will cause some disturbances in the colour and pressure of your water.

If you see crews working in your neighbourhood, it is advised to avoid using your water until your area has been serviced to avoid drawing debris into your waterlines.

Regular flushing of the water mains will take place during the week of September 13th to 17th. Again your patience is appreciated.

Use extra caution when doing your laundry and you may want to bottle some water to keep on hand during these times.

We appreciate your patience while this maintenance is completed.
